Observations...

By UDELL

Hancock County's landing will be completed within the next few weeks and will be dedicated May 23. Mr. Campbell, who is in Bay St. Louis now, is doing the work on the strip. It will be an asset to the community. Fifty planes are due here, stopping off in Bay St. Louis as a part of their tour from New Orleans to Laurel, Fort Morgan, St. Louis and Vicksburg. More than 75 people, including city and county officials will be present for the Airport Managers' meeting May 22. This new jet didn't even require any money on the part of our citizens; yet, little interest has been demonstrated by our "awake" citizenry.

and beach is really developing. Now that a walkway is being laid at the head of Carroll avenue and new playground equipment is at present on a small scale, being put on the beach. The few pieces of equipment that were out there last week, you know that the beach will be the spot of many children in the future. At one time, there was a waiting line of over 50 children for the swings. This is going to be a wonderful spot for you to enjoy on a hot summer day or night.

Every morning, until that night, the bridge just had to be along. The wedges on the bridge wouldn't work and left a gap between the draw and the bridge. A continuous bridge was crossed the bridge all the way. It took as long as minutes for some autos to cross.

Have you noticed the American Red Cross? Approximately 60% of the quota for Hancock County has been collected, and this is more than ever before, the Cross needs your help. The Missouri Valley flood, the Cross needs more funds to help the needy. Everyone is asked to contribute, and anyone who has not been contacted personally is asked to leave their donation at the Chapter office in the Courthouse or call and someone will come by for it. Give today.

The early hours Sunday morning when the sun was entered into and several appliances. A thief or thieves gained entrance by cutting a window on the bay side. While on the subject of Demoran's, this wide young businessman has been the interests of the Bay Service Laundry located on the avenue, and will open this business in its present location for a while, in addition to the laundry on Hancock and on streets.

W. Wilcox of Clermont Harbor and Al Landers of Waveland are opening the Wilcox Electric and Appliance Company in Waveland, 123 Coleman Avenue Saturday, May 3. We extend our heartiest congratulations to our young neighbors and wish them every success in their new venture.

Petition will soon make its appearance in Bay St. Louis to change the present form of government to an aldermanic form. The 400 question is Will this be the wisest and wisest form? From the salaries indicated, it seems that the hands of one person - the Council Manager. Think this over before you sign any petition. Another question... Why the sudden decision to change our present form of government which has been in effect for the past 25 years?

New Koble College To Conduct Guide Services For Area

The Reverend Douglas R. Mac Laury, Administrator of Koble College, announced today that the staff of Koble College would provide a testing, diagnostic, guidance and counseling service to individuals, families and private and public schools.

Results of the testing will indicate specific strengths and weaknesses in the areas of personality, academic achievement, intellectual abilities and social-psychological adjustment, and will enable parents or teachers to have a more objective basis for guiding the child.

Through analysis of tests, parents, teachers, counselors and youth leaders may help children and young people solve their educational, social, personal and vocational problems, and influence a guide or direct the future of a young person with effectiveness and objectivity.

All individual tests will be administered at Koble College, by appointment only. Parents should allow four to six hours for the administration of the test, depending upon the age of the individual. An interpretation of scores, correlations, and analysis will be available to parents with opportunity for conferences and guidance counseling.

Group tests will be administered at the schools contracting for the testing service. Results will be returned direct to the school authorities with recommendations, if desired, especially with reference to any deviation from the norm.

Parents as well as teachers are beginning to realize the desirability as well as the necessity of striving to improve their ability to guide children and adolescents to better personality, educational and social development. Valid tests to guide parents and teachers are available on five levels: Pre-Primary, Primary, Elementary, Intermediate and Advanced. Tests may be administered to individuals or groups.

A testing program is a major aid today to teachers as well as to parents. A standardized testing program, properly administered and analyzed, will enable the classroom teacher as well as the guidance counselor to plan curriculum changes, interpret the influence of school, home and community environment, as well as the intellectual, social, psychological and vocational potential of the student.

It is possible to validly test students according to age with tests of intellectual ability, tests of interest, tests of emotional adjustment, tests of scholastic achievement and tests of vocational aptitude and skills.

Since Koble College is a non-profit corporation, all fees will be charged on a cost basis. Estimated cost of administering the tests to an individual of any age, with an interpretation of the results, and a conference, will be \$25.00. Groups will be assessed on the basis of numbers.

Inquiries should be directed to the Koble College Educational Foundation, Pass Christian, Mississippi.

George Curet, Jr., Stationed In Virginia

Camp Pickett, Va. - Pvt. George J. Curet Jr., whose parents live in Kiln, Miss., is becoming acquainted with combat supply and communications problems during Operation Logex - 52, now underway at Camp Pickett.

His unit, the 313th Signal Operations Battalion from Ft. George Meade, Md., has set up 33 telephone circuits and complete telephone and radio facilities for use during the exercise.

The operation is designed to train logistical forces in the support operations necessary for a theoretical field army of 450,000.

Private Curet, a message center clerk, entered the Army in January 1951.

NOTICE

The Auxiliary of the Bay-Waveland Yacht Club will meet Wednesday, May 7, at 11:00 a.m. All members are urged to attend.

A mass meeting was held at the Courthouse Tuesday night for the purpose of circulating a petition, which calls for the changing of the present commission form of government to the council manager type in Bay St. Louis.

There was only a small number of citizens of this city present. They were as follows: Earl Raymond, Mr. and Mrs. T. J. McCaleb, Sidney Manier, Louis Schwall, Tom Chapin, Ralph Blaise, Mrs. J. Carmichael, Mrs. Mary Jolke, Miss Barbara Slick and Paul Fitter.

The intentions of the petition committee are to change the present form of government and to reduce Bay St. Louis to three wards instead of the present four.

Should the city government be changed, the council manager form would call for an alderman from each ward, an alderman at large, a mayor, a council manager and three clerks.

Under the existing set-up, consisting of a mayor, two commissioners, and a clerk, the city's operating expenses amount to approximately \$1,050 a month.

The council manager type which has been proposed, would be more expensive to the city as each alderman would receive \$50.00 a month; the mayor, \$100.00 a month; council manager, between \$500.00 and \$600.00 a month; and the three clerks, an estimated \$200.00 a month.

There is only one city in the state of Mississippi that operates under the proposed plan of government. This city, Meridian, has a population of approximately 41,000.

ABOUT US

Here are our aims and objectives:
1. To develop each girl to her fullest capacity through group experience.
2. To show a girl how to use, in a practical way, what she has already learned.
3. To encourage her to develop a healthy attitude towards life and a set of true values.
4. Fun for all and service to others.

ATTENTION GIRL SCOUTS!

Have you saved any nickles this week toward helping mom and dad pay for the weeks at Day Camp? Would some neighbor want you to entertain her baby while she cooks dinner in peace? There are many ways to earn change.

And a special Girl Scout salute to Miss Patricia Thompson who gave the interesting talk to Intermediate Troop 2... to Mrs. J. B. Goldman who gave the American flag as a gift to Brownie Troop 2... to Mrs. Don Chamberlain, Mrs. John Hebert, and the Girl Scouts who presented the play to Brownie Troop 2... to all parents who helped and attended the investiture service of Brownie Troop 2... and to the C & S the Jitney - Jungle for giving Grocery, Wilmer's Grocery, and cookie selling space to the Brownies.

TROOP REPORTS
Brownie Troop 2, Joanne Nichols, scribe.
We had a special meeting April

24 as we held our investiture service and became real registered Brownies. We are proud of our girls.

The Girl Scouts, Troop 1, under the direction of Mrs. Don Chamberlain and Mrs. John Hebert, presented the play, "The Brownie Story" which we enjoyed. We had our parents and close relatives attend.

After the play was presented, the investiture was held, then the pinning. We had refreshments consisting of cakes and pastry. Then we sang our songs and closed with the Friendship Circle.

Our president for the week was Emily Rausch, and the treasurer, Penny Sue Weber.

Brownie Troop 3, Judy Raymond, scribe.

We are divided into three patrols with the titles "Rain in the Face", "Robin Hood" and "Blue Jays". This week "Rain in the Face" wrote a play and presented it; then we worked on our scrap books.

After we played some games we closed with Dale Schultz giving the promise.

Intermediate Troop 1.
"If at first you don't succeed, try again". That is what we are going to do about our hike which was rained out last week. We had to boil our weiners in the kitchen of the Episcopal Church. But skies look blue for this week.

We enjoyed our indoor party, however, after which we made gifts, cutting them from styrofoam.

We were lucky this last week to have a guest speaker, Miss Patricia Thompson, who spent considerable time overseas with the Red Cross during World War II. Miss Thompson gave us an interesting talk on India, telling us of the customs and clothing styles there.

She brought with her several souvenirs which she had obtained in India - clothing items of both men and women, two evening bags, a solid silver pin, etc.

After Miss Thompson's talk, Mrs. J. B. Goldman gave some information on the Girl Scout Day Camp which will be held in June. Four new members have been added to our troop in the past four weeks: Gail Colson, Linda Kimmel, Dominica Benigno and Rita Morel.

GERALDINE DAVID BARKSLEY MEXIN BY TAT DOG SUNDAY

Geraldine, daughter of Mr. and Mrs. John David, was happily at play Sunday when she heard yelps from her pet Cocker Spaniel. Upon investigation, Geraldine found the little dog was in a drained swimming pool and unable to get out. When Geraldine went into the pool and picked up the puppy he was nervous and excited and bit her several times about the mouth. Little Geraldine had approximately 20 stitches taken where the dog had lacerated the skin. She is said to be getting along nicely and her doctor feels that in time no scar will be noticeable. The dog had been innoculated against rabies.
